

ABDULLAH SHAH

FRONTEND DEVELOPER

ABOUT ME

Front-End Developer with a proven ability to collaborate effectively with senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I attended a 1000+ hour coding bootcamp to learn new languages while sharpening existing skills. Ready to apply my passion for coding to a talented engineering team to develop quality solutions

EDUCATION

Agriculture University Of Peshawar

Bachelor's Computer Science

GPA : 3.5

RESPONSIBILITIES

- Designing and implementing user interfaces (UI) for web applications using HTML, CSS, and JavaScript.
- Collaborating with the UX and UI designers to ensure that the website or application is visually appealing and user-friendly.
- Ensuring cross-browser and cross-device compatibility, and optimizing the website or application for performance and speed.
- Writing clean, modular, and maintainable code that adheres to industry standards and best practices.
- Testing and debugging the website or application to ensure that it functions as intended and is free of errors.
